

HB5.3

1) A price is decreased from £250 to £215.
Calculate the percentage decrease.

2) Simplify $\sqrt{7} \times \sqrt{14}$

3) Expand and simplify $(x + 3)^2$

4) Work out $\frac{4}{7} \times \frac{2}{5}$

5) Make x the subject of $y = (ax)^2 + b$
